Give us but Light! - Messrs. Editors: In walking through the old part of our fast improving city, we occasionally meet an old friend in the shape of a lamp-post, which reminds us that there was a time when the City Fathers took more care of the life and limbs of their children than they have for some time past. At that time the salary of the Mayor was \$1,000 per annum; the members of the Boards of Al-dermen and Council received \$1 per day for their services; and the Corporation clerks received from \$400 to \$600 or \$800 a year for their services. Hundreds of dollars were not wasted then to liquor men coming from other cities on visits to the metropolis. Now, the Mayor gets \$1,600 per annum, Aldermen and Council \$2 per diem—that is, for two or three hours' service for each day they sit; and clerks from \$800 to \$1,000 or \$1,200 per annum, and the people are kept in darkness. Life is sacrificed, limbs broken, and other severe accidents occur to citizens and strangers, by falling into the canal, or tumbling over the huge rocks spanning some of the gutters in our most frequented streets-and all for the want of light. There is not a city in the Union where the lives, limbs, and comfort of the people are so little cared for as in this city. The Mayor of Baltimore recommended an increased amount of light to be shed on that city, as one means of preventing crime; and there is no doubt but that if our streets were lighted the same effect would be produced here. We have the authority of Holy Writ for it, that "those whose deeds are evil love darkness rather than light." Let the people see to it, that while our city authorities provide for their own comforts by increastheir salaries, some attention be paid to the necessities of the people. Much more might be said on this subject, but it is deemed to be only necessary to call the attention of the proper authorities to the subject, to have the dark parts of our city lighted. FREEDOM OF THE PRESS .- We assent to the views contained in the following article, from the New York Chronicle:

"We hold that for an editor to make his opinions the gauge of all the information which he gives to his readers, publishing whatever agrees with them, and suppressing every thing that differs from them, even though it should be done with a view to preserve union and promote revivals of religion, would be to assum prerogative over the entire community of his aders. It is possible for an editor to be wrong on any question on which there is an honest difference of opinion; and hence we feel bound, while we express our own views, to give our readers all the facts both for and against, that they may judge for themselves. If any are dissatisfied with our course in this, and prefer not to think for themselves, they must get some one else to think for them.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixinges of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intlinate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. COLD SPRING WATER CURE.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and unseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the faxtures and conveniences for innocent and healthful gymnastic exercises.

An enlightened public sentiment has everywhere repu-An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.

TERMS.

TERMS.

For board, medical advice, attendance and nursing, &c., from \$7 to \$14 per week, payable weekly, varying according to the room and attention required. Each patient will-be required to furnish two linen sheets, two cotton comforters, one woollen blanket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to 8. M. Davis, M. D., or to George W. Davis, M. D., 239 Main street, Buffalo, N. Y.

HUNT'S MERCHANTS' MAGAZINE

AND COMMERCIAL REVIEW.

Established, July, 1839,
BY FREEMAN HUNT, EDITOR AND PROPRIETOR.

THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1839, and each volume now contains more than seven hundred large octavo pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neathy and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchants' Magazine from distinguished statesmen:

Letter from the Hon. Henry Clay.

Letter from the Hon. Henry Clay.

Ashland, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statisman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this originon, I am glad that it has been, and

to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and re-gard, I am truly your friend and obedient servant, Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmore.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good leal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indiscissable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton. Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Mag-azine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large accountation of the clearness which delights while it instructs. It is, in fact, a merchants' magnine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a dew of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magnaine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

arefully consulting it.

Very respectfully, sir, your obedient servant,
THOMAS H. BENTON.

Letter from Hon. Wm. H. Seward. My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

ment.

I am, with great respect, your humble servant,

NLARGED AND IMPROVED, compiled chiefly from I the Magnum Totius Latinitatis Lexicon at Facciolati Forcellini, and the German works of Scholler and Lucmann, embracing, also, the classical distinctions of rds, and the Etymological Index from Freund's Lexi-

words, and the Etymological Index from Freund's Lexicon.

The present edition of this standard and favorite Latin Lexicon has been much improved by the transfer to its columns of the classical distinctions of Latin words, as given in the Lexicon of Dr. Wm. Freund, of Germany, and translated by Riddle. The classical degree of each word is indicated by a figure; for example, a word without a figure is fully classical and Ciceronian; with the figures 1, 2, and 3, words are classical only in the first, second, &c., degrees; and this distinction the student perceives at a glance. The Etymological Index, also from Freund's Lexicon, has been incorporated into the present edition of Leverett, and will be found a valuable acquisition. While transferring these notes and marks, catalogues were carefully kept of the words found in each Lexicon, which were not found in the other. On comparing these catalogues, it was found that the value and importance of the additional words found in Leverett, so far as a knowledge of the Latin language is concerned, very far exceeds that of those found in Riddle's Freund. The extensive use of Leverett's Lexicon in all parts of the country, and the preference which has been universally given to it over all similar works, render its recommendation superfluous; but attention to this new edition is predecessors of the distinguished favor which the work has litherto received.

Amherst College, Dec. 25, 1848.

Mr. Robert Sears—Dear Sir: I have looked over the entire series of your valuable publications with much interest and profit; and an quite surprised at the amount of literary labor you have performed, and the research it must have cost you to obtain so many fine illustrations, while you have an active superintendence of an extensive business. I am also gratified at the decidedly moral and religious influence which your books will exert, and cannot but hope that they will do much to counteract the effects of that light and immoral literature which deluges the land, and, like the frogs of Egypt, comes up even to the kneading troughs of our kitchens. May you live long to follow your plans.

Respectfully and sincerely, your obliged servant, EDWARD HITCHOOCK.

MORE HOME EVIDENCE.

THE TESTIMONY OF ONE OF OUR LAWYERS—
unmber and respectability of the testimonials of which
you are already in possession, as to the efficacy of your
Medicine, "THE GREAT VA. REMEDY," in the diseases
which it is designed to cure, are sufficient, in my opinion,
to establish its reputation, and secure for it such patromage
as will adequately roward you for the discovery of so inestimable a Medicine—yet the great benefit which I have
derived from its use, and the salutary effects which I have
derived from its use, and the salutary effects which I have
derived from its use, and the salutary effects which I have
derived from its use, and the salutary effects which I have
witnessed from its employment in the cases of several
friends, to whom I had recommended it, constrain me to
contribute, for such use as you may think proper to make
of it, this formal acknowledgment of its sanitary virtues.
My own case was Dyspepsia of long duration, and very
aggravated in its character, manifested by an almost total
destruction of the digestive functions, great debility, nervoumess, emealation, and impafred appetite, with pain,
and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head,
and many other symptoms indicative of the worst type of
the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends,
in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved
efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the
taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled
energies of the digestive organs, and imparts strength and
reanimation to the whole system.

Very respectfully, yours, &c.,

WILMINGTON BOARDING SCHOOL

FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chemistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Sevent month (July).

VALUABLE LAW BOOKS.

WE invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports. English Common Law Reports,
58 Volumes, with a complete Index to the first 47 Volumes.
Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.
Price—For the first 43 vols., \$3 50 per vol.
For the succeeding, 2 50 "
The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

lish Common Law Reports.

By Hon. Gegree Sharswood and George W. Biddle, Esqrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

Messon and Messby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery. ** We take pleasure in referring to the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

Cameridge, January 25, 1845. Messrs, T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great
sincerity say, that I entertain a very high opinion of the
recent Exchequer Reports. In my judgment they are not
excelled by any cotemporaneous Reports, in learning,
ability, or general utility and interest. The cases decided
are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem
of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency or reprinting them in this country. Of the high value of those Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours, SIMON GREENLEAF.

Law Library,

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Niel Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.
